17 ORLANDO WARNER: First of all, I would like to
18 know: Would they like to have these in their backyard?
19 And I was in World War II aboard ship. I was in the Navy.
20 And I've seen what this can do to counties, and I know what
21 it will do if it gets loose around here. The public
22 wouldn't be safe at all. So I'm wondering, hopefully they
23 can find someplace, something to do with it besides storing
24 it somewhere. I don't know. Maybe I'm wrong. I haven't
25 had that much education. But that's about the size of it.
